# Disclaimer

Piranha Pte. Ltd. (UEN: 201938772N) is an education platform that is not licensed or regulated by the Monetary Authority of Singapore to provide financial advisory services. All information provided by Piranha Pte. Ltd. is meant for educational purposes only and is not to be regarded as an investment or financial advice.

Nothing in this presentation is to be construed as financial advisory services, or a solicitation or offer to sell capital markets products and is not to be construed as a source for any kind of professional advice (including but not limited to personal financial or investment advice). No consideration has been made, is made, or will be made with reference to your personal financial circumstances throughout this live presentation.

You should always seek the advice of an appropriately qualified professional before making any financial or investment decision. For the purposes of the contents shared in the presentation, Piranha Pte. Ltd., its directors, employees, representatives, and agents are not, and do not hold themselves out to be financial advisers or capital markets services providers, or representatives of financial advisers or providers.

When you invest or trade in the financial markets, you may potentially lose some or all of your initial investment or may even lose more than your initial investment. You agree that you are responsible for using your own judgment when making any investment, including but not limited to making yourself aware of and assessing all the risks associated with any investment as well as seeking advice from an independent financial or investment adviser.

The past performance of any methodology shared during the live presentation does not necessarily indicate future results. We reiterate that any investment(s) that you make, whether before, during or after learning from the educational and informational content available on the presentation slides and/or other materials shared during the live presentation may result in losses. The methodology or content made available on the presentation slides and/or other materials shared during the live presentation are derived from the personal knowledge, experience and expertise of the trainers or representatives of Piranha Pte. Ltd., and may not be suitable for or applicable to you and your personal, individual circumstances.

Any information related to a company (including but not limited to its: (a) financial performance, (b) revenue model, (c) industry and sector, (d) target consumers, (e) its past, present or estimated future share price), or case studies shared during the live presentation are solely used to illustrate the application of trading methodologies and valuation methods employed in the context of actual companies, including the strategies taught in our educational programmes.

None of the information provided in the case studies represent a recommendation to buy, sell or hold any capital markets products. We have not and do not take into account the individual characteristics, profile or risk appetite of any person watching this live presentation (or listening to it or reading its transcript). Neither Piranha Pte. Ltd. nor its directors, employees, representatives, and agents make any representation or warranty as to the completeness, timeliness or accuracy of the information shared in the case studies.

When we make reasonable endeavours to provide you with information (including but not limited to stocks quotes, charts, articles or any other statement(s) regarding the stock market or other financial and investment information) during the live presentation, you should take note that these are only our personal opinions and are not recommendations. Neither Piranha Pte. Ltd. nor its directors, employees, representatives, and agents make any representation or warranty as to the completeness, timeliness or accuracy of such information.

Nothing shared in the live presentation shall be construed as stating or implying that any past results are an indication of future performance, even if the same strategies or methodologies are adopted. Neither we nor our information providers shall be liable for any errors or inaccuracies in the contents of the presentation

# PRICE ACTION FORCE OF LEFT SHOULDER (FLS) TRADING STRATEGY

## BULLISH Force of Left Shoulder (FLS) Strategy Criteria

1. Left Shoulder (LS) to form **below** 50% of the overall chart in the given time frame.
2. Right Shoulder (RS) has to be **below** the Left Shoulder (LS) but above the Head.
3. Require a minimum simple force **bottom** at the RS using the LS LP.
4. Bar counting up to 6 bars for **bullish** EXE to appear and close at or **above** the LS LP. We count the 1st bar that test the LS LP as number 1, for a max of 6 bars.

Recap of Time Frame Guideline
- 4 years for weekly chart
- 1 year for 2D chart
- 5 days for 30mins chart
- 10 days for 60mins chart

## Frequency Asked Question (FAQ)

1. Can we trade this on the bear side?

Ans: Yes, however if the overall stock market is bullish, I would still avoid taking a short trade. I would use bearish force of left shoulder more as an exit signal if long.

2. Can we apply this bullish FLS on the lower time frame?

Ans: Yes, applies the same to lower time frames.

3. Do we require MF for DR1 or bullish FS to form at the Left Shoulder (LS)?

Ans: It is optional, simple force bottom with bullish EXE seen within 6 bars would fulfil entry criteria.
