ENTRIES AND EXITS TACTICS

FOR LONG ENTRY

LUCKY ENTRY
It means that trader can enter the trade **below** the sweet spot

SMELLY TRADE
It means that price action has moved at least 1R (distance between Entry and SL) in the **bullish** direction away from supposed Entry. Trader is advised to remove his/her supposed Entry when this happens.

TRADE STRUCTURING RULE
It means that trader can enter the trade within the sweet spot or below the sweet spot (lucky entry) in a way that the price difference between the supposed Entry and SL is within current 1 ATR (simple).

ENTRIES AND EXITS TACTICS

Copyright © 2025 Piranha Pte Ltd. All Rights Reserved.
Reproduction in any form without the express written consent of Piranha Pte Ltd is prohibited.

ENTRIES AND EXITS TACTICS

Supposed Long Entry: $203.82
SL: $195.03
Difference between supposed Entry and SL
= $203.82 - $195.03
= $8.79 (more than current 1 ATR of $8.04)

Therefore, trade is **WIDE.**
Remedy: Adjust supposed Entry lower or SL higher

ENTRIES AND EXITS TACTICS

FOR SHORT ENTRY

LUCKY ENTRY
It means that trader can enter the trade **above** the sweet spot

SMELLY TRADE
It means that price action has moved at least 1R (distance between Entry and SL) in the **bearish** direction away from supposed Entry. Trader is advised to remove his/her supposed Entry when this happens.

TRADE STRUCTURING RULE
It means that trader can enter the trade within the sweet spot or above the sweet spot (lucky entry) in a way that the price difference between the supposed Entry and SL is within current 1 ATR (simple).

ENTRIES AND EXITS TACTICS

Supposed Short Entry (red line): $665.19
SL: $700.83
Difference between supposed Entry and SL
= $700.83 - $665.19
= $35.64 (less than current 1 ATR of $50.00)

Therefore, trade is **NOT WIDE.**
